

# Kentucky Health Information Exchange Status Update

September 22, 2014

### KHIE Participation Agreements Signed

**myhealthnow**  
 easy online health records

myhealthnow is a tool that lets you see your health information over the internet. You can see your office visit records, review your lab results, and even update your personal information. It is completely safe so you can be certain that your private information is protected. We hope this new tool will help you take an active role in your healthcare.

## Are you a new NoMoreClipboard user?

To create a **new** account, please complete the form below:

user name:

# KHIE Patient Portal- Patients

**myhealthnow**  
easy online health records

Why now: because there is no better time to take control of your health

Why now: because you don't want to have to wait days or weeks for your test results

Why now: because you can have all your health records in one place

Why now: because your caring for an elderly parent and need access to their complete medical history

Why now: because your doctor needs your complete medical history to provide the best care for you

Why now: because you don't want to have to pay for a test or lab work that was recently done by another doctor

# KHIE Patient Portal- Providers

**myhealthnow**  
easy online health records

- Why now: results in increasing patient satisfaction, especially through the use of technology
- Why now: patient engagement can improve quality and safety
- Why now: better engagement increases hospital efficiency and revenue, since those patients are less likely to be readmitted
- Why now: patient engagement/activation have found a positive relationship to health status outcomes
- Why now: Medical excellence is enhanced when patients truly understand the treatment plan.
- Why now: Incentive payments for those hospitals/providers that meet federal requirements for meaningful use
